Amazon Associate I

- As a picker, responsible for locating and selecting products from the shelves in the fulfillment center based on customer orders. Use handheld devices to scan barcodes on products and confirm quantity and quality. Place items in a tote and drop the tote on the conveyor to the pack department.
- As a packer, receive items from the conveyor picked by pickers, and pack them securely in boxes or bags. Sometimes add packing materials, such as bubble wrap or packing paper, to protect items during transit.
- As a stower, receive incoming shipments and organize them in appropriate locations in the fulfillment center. Use handheld devices to scan barcodes on products and shelves to ensure correct storage.
