**GPA:3.92/4.0**

Mathmatics Minor, Indiana University Southeast, New Albany

January 2021 - May 2024

**GPA:4.0/4.0**

## Working Experience

### AMAZON ASSOCIATE I, Dec 2020 - May 2023

#### Responsibilities:

- As a picker, I am responsible for locating and selecting products from the shelves in the fulfillment center based on the customer's order. We use handheld devices to scan barcodes on the products and confirm the quantity and quality. Then, I put the items in a tote and drop the tote on the conveyor to the pack department.
- As a packer, once I receive the items from the converyor picked by pickers, I pack them securely in boxes or bags to ensure that they are not damaged during shipping.Sometimes I also add packing materials, such as bubble wrap or packing paper, to protect the items during transit.
- As a stower, My responsibilities are to receive incoming shipments and organize them in the appropriate locations in the fulfillment center. I also use handheld devices to scan barcodes on the products and shelves to ensure that the products are stored correctly.

### BUSSINESS INTEGRATION ANALYST INTERN, May 2023 - Present

#### Responsibilities:

- Manage, maintain, and update software configurations in line with company needs and project requirements.
- Collaborate with development teams and stakeholders to understand system requirements and design effective configuration models.
- Implement configuration changes, updates, and improvements, ensuring minimum disruption to users.
- Perform regular audits to ensure software configurations comply with established standards and procedures.
- Document and maintain records of system configurations, updates, and modifications.
- Identify and troubleshoot configuration problems, liaising with software vendors if necessary.
- Assist in the development and implementation of configuration management policies and procedures.
- Provide regular reports and updates to management on configuration status and issues.
